MA91

## Rain Shelter 1 module - MA91

Within Matrix series MA91 is an accessory that allows the mounting where the insertion inside the wall is not in demand. This 1 module rain shelter is for installation, where surface mounting is strictly required. This item is manufactured in stainless steel of right thickness and suitable dimensions. It is quite solid and it permits the mounting with the simple and direct fixing of the function modules and of the frame MA61 as element of finish. Available from end March 2005
